

**Cetraben
Emollient Bath Additive**

is an effective, moisturising and protective oil for the symptomatic relief of symptoms such as red, inflamed, damaged, dry or chapped skin especially when associated with eczema.

Precautions: Do not use if you are allergic to any of the ingredients. Mild skin reactions have been seen very rarely. This product makes skin and surfaces slippery. Take care not to slip when entering or leaving the bath. Avoid contact with the eyes. If product comes into contact with eyes, wash out with water.

Do not smoke or go near naked flames - risk of severe burns. Fabric (clothing, bedding, dressings etc) that has been in contact with this product burns more easily and is a serious fire hazard. Washing clothing and bedding may reduce product build-up but not totally remove it.

Reporting of side effects

If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in this leaflet. You can also report side effects directly via the Yellow Card Scheme at www.mhra.gov.uk/yellowcard or search for 'MHRA Yellow Card' in the Google Play or Apple App Store. By reporting side effects you can help provide more information on the safety of this medicine.

Keep out of the sight and reach of children.

Do not store above 25°C.
Do not use after expiry date.

CETRABEN BATH ADDITIVE 500ML

Directions: For external use only. Cetraben Bath Additive should be added to a warm water bath or applied to WET skin before showering. If you accidentally swallow this product, go to your nearest accident and emergency department.

Children and adults: Squeeze the bottle to fill the measure. Any excess will be sucked back into the bottle. Add one measure for every 10cm depth of bath water. In a baby bath, add a few drops until the water turns milky.

Precautions: Do not use if you are allergic to any of the ingredients. Mild skin reactions have been seen very rarely. This product makes skin and surfaces slippery. Take care not to slip when entering or leaving the bath. Avoid contact with the eyes. If product comes into contact with eyes, wash out with water.

Do not smoke or go near naked flames - risk of severe burns. Fabric (clothing, bedding, dressings etc) that has been in contact with this product burns more easily and is a serious fire hazard. Washing clothing and bedding may reduce product build-up but not totally remove it.
