**PATIENT INFORMATION LEAFLET**  
**IBUPROFEN 100 mg/5 ml Oral Suspension**  
**Bupron 100 mg/5 ml**

Read all of this leaflet carefully because it contains important information for you.

This medicine is available without prescription. However, you still need to give Ibuprofen Oral Suspension to your child carefully to get the best result from it.

- Keep this leaflet. You may need to read it again.
- If you need further information or advice, ask your doctor or pharmacist if you need more information or advice.

In this leaflet:

1. What Ibuprofen is and what it is used for
2. What you need to know before you give Ibuprofen
3. How to give Ibuprofen
4. Possible side effects
5. How to store Ibuprofen
6. Contents of the pack and other information

**WHAT IBUPROFEN IS AND WHAT IT IS USED FOR**

Ibuprofen 100 mg/5 ml Oral Suspension (Ibuprofen) contains ibuprofen as the active ingredient. This belongs to a group of medicines called non-steroidal anti-inflammatory drugs (NSAIDs). Ibuprofen is given to children as a pain reliever for relief of mild to moderate muscular pain, headache, earache, sore throat, dental pain and inflammation.

**Warnings and Precautions**

If any of these apply, ask for advice from a doctor or pharmacist before giving this medicine.

- has an allergy or hypersensitivity to ibuprofen or any of the other ingredients in this medicine
- has an inherited intolerance of some sugars
- has ever had severe kidney, heart or liver problems
- has ever had a stomach ulcer or a history of bleeding into, or perforation of, the intestine especially after previous NSAID treatment
- has high blood pressure, kidney or liver problems
- has ever had a stroke
- has had previous/current leukemia

**5. HOW TO STORE IBUPROFEN**
