Glycerin relieves sore throats and rough or chapped skin.

1. Before you use this medicine

Do not use the medicine if you have....

- An **allergy** to any of the ingredients listed on the front.
- **Diabetes.**

Use with caution if you suffer from heart or kidney disease, or dehydration. Ask your doctor if unsure.

Pregnant or breastfeeding....
Ask your doctor or pharmacist for advice before using this medicine if you are pregnant, might be pregnant or are breastfeeding. Glycerin should not be used in pregnancy unless the doctor has told you to do so.

2. Possible side effects

Like all medicines, Glycerin when taken by mouth can have side effects, although these don't affect everyone.

Possible side effects are:

- Headache • Feeling sick • Being sick • Diarrhoea
- Thirst • Dizziness • Mental confusion • Irregular heartbeat • Severe dehydration if already dehydrated.

If you notice these or any other side effects, stop use and tell your doctor or pharmacist. They will tell you what to do.

Reporting of side effects
If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in this leaflet. You can also report side effects directly via the Yellow Card Scheme at: www.mhra.gov.uk/yellowcard
By reporting side effects you can help provide more information on the safety of this medicine.
