

## Erelzi (Etanercept) Patient Alert Card

**This Patient Alert Card contains important safety information that you need to be aware of before you are given Erelzi and during treatment with Erelzi. Please ask your doctor if you do not understand this information.**

- Show this card to any doctor involved in treating you.
- See also Erelzi package leaflet for more information.

### Use in Children and Adolescents (weighing less than 62.5 kg)

Erelzi should not be used in children and adolescents weighing less than 62.5 kg. Please ask your doctor if you have any questions about this.

### Infections

Erelzi may increase the risk of getting infections, which could be serious.

- You should not be treated with Erelzi if you have an infection. If you are not sure, ask your doctor.
- If you develop symptoms suggestive of infection, such as fever, persistent cough, weight loss or listlessness, seek medical attention immediately.
- You should be evaluated for tuberculosis (TB). Ask your doctor to record the dates and results of your last screening for TB below:

### Congestive Heart Failure

If you develop symptoms **suggestive of congestive heart failure or worsening of existing congestive heart failure**, such as shortness of breath, swelling of ankles, persistent cough or fatigue, seek medical attention immediately.

**Keep this card with you during your treatment with Erelzi and for 2 months after the last Erelzi dose, since side effects may occur after your last dose of Erelzi.**

### Other information (please complete):

**It is important that you and your doctor record the brand name and batch number of your medication.**

---

---

• Patient's name: \_\_\_\_\_

• Doctor's name: \_\_\_\_\_

• Doctor's phone number: \_\_\_\_\_

### Further Information

Please read the Erelzi Package Leaflet for further information.
