Warning message for healthcare professionals treating the patient at any time, including in conditions of emergency

This patient has been prescribed toripalimab, a PD-1 blocking antibody, which can cause immune-mediated adverse reactions that affect the skin, lungs, gut, liver, hormone glands, kidneys, and other parts of the body. These can occur at any time during treatment or months after discontinuation. Early recognition and appropriate management are necessary to minimise the consequences of any adverse reactions. Refer to the toripalimab Summary of Product Characteristics for details on the detection and management of any adverse reactions.

Adverse Event reporting

If you get any side effects listed above or any other possible side effects not listed in this leaflet, talk to your doctor, nurse or pharmacist.

You can also report side effects directly to ADR Reporting at the MHRA through the Yellow Card scheme, via the Yellow Card website www.mhra.gov.uk/yellowcard or the free Yellow Card app available in Apple App Store or Google Play Store or via clinical IT systems for healthcare professionals. Alternatively, you can call 0800 731 6789 for free, Monday to Friday between 9am and 5pm.

LOQTORZI® ▼ 240 mg
(toripalimab)

Patient Alert Card**Important Safety Information to Lower the Risk of Immune-related Side Effects**

This Patient Alert Card contains important safety information which you must be aware of before starting and during LOQTORZI treatment.

For more information, talk to your doctor, pharmacist or nurse. You can also consult the LOQTORZI Patient Information Leaflet (PIL) at www.medicines.org.uk/emc/.

This Risk minimisation material fulfils the conditions of the marketing authorisation and has been approved by the MHRA.

反面

▼ This medicinal product is subject to additional monitoring.
Tell your doctor right away if you develop any of the signs or symptoms listed below. Prompt medical treatment can prevent problems from becoming more serious and reduce your symptoms. Your doctor may give you other medicines to treat your symptoms, withhold the next dose or stop treatment with LOQTORZI.

IMPORTANT

- Keep this Patient Alert Card with you all the time during the treatment period and for four (4) months after the last LOQTORZI injection.
- Show this Patient Alert Card to any healthcare professional involved in your medical care or if you go to the emergency department.
- If you have any questions, consult a doctor, pharmacist, or nurse about your treatment. Do not attempt to diagnose or

treat side effects yourself.

- This Patient Alert Card does not list all the potential side effects.
- Read the LOQTORZI package leaflet or consult your doctor for more information about the side effects of LOQTORZI.

Seek urgent medical attention if you have any of the following signs or symptoms, or if they get worse:
