

This reminder card contains important safety information that you need to be aware of before and during treatment with zoledronic acid (4mg/100ml solution for infusion) injections for cancer-related conditions.

Your doctor has recommended that you receive zoledronic acid injections to help prevent bone complications (e.g. fractures) caused by bone metastases and/or to reduce the amount of calcium in the blood in adult patients where it is too high due to the presence of a tumour.

A side effect called osteonecrosis of the jaw (ONJ) (bone damage in the jaw) has been reported uncommonly in patients receiving zoledronic acid injections for cancer-related conditions. ONJ can also occur after stopping treatment.

In order to reduce the risk of developing ONJ, there are some precautions you should take:

Before starting treatment:

- Ask your doctor to tell you about ONJ before you start treatment.
- Check with your doctor whether a dental examination is recommended before you start treatment with zoledronic acid.
- Tell your doctor/nurse (health care professional) if you have any problems with your mouth or teeth.

Patients undergoing dental surgery (e.g. tooth extraction(s)), who do not receive routine dental care or have gum disease, are smokers, who receive different types of cancer treatments or who were previously treated with a bisphosphonate (used to treat or prevent bone disorders) may have a higher risk of developing ONJ.

While being treated:

- You should maintain good oral hygiene, make sure your dentures fit properly and receive routine dental check-ups.
- If you are under dental treatment or will undergo dental surgery (e.g. tooth extraction(s)) inform your doctor and tell your dentist that you are being treated with zoledronic acid.
- Contact your doctor and dentist immediately if you experience any problems with your mouth or teeth such as loose teeth, pain or swelling, non-healing of sores or discharge, as these could be signs of ONJ.

Read the package leaflet for further information.

Reporting of side effects: If you get any side effects talk to your doctor, pharmacist, or nurse. You can also report side effects directly to the MHRA via the Yellow Card Scheme, website www.mhra.gov.uk/yellowcard, or search for MHRA Yellow Card in the [Google Play Store](#) or [Apple App Store](#) available for free. Alternatively, you can call 0800 731 6789 for free, Monday to Friday between 9am and 5pm.

When reporting please provide as much information as possible. By reporting side effects, you can help provide more information on the safety of this medicine.

You can also report any side effects directly to the company by sending an e-mail to pv@unicornpharma.co.uk
