Drug Name: _____

Dose: _____

Frequency of Dose: _____

Date: _____

Instruction/comments: _____

IMPORTANT INFORMATION ABOUT YOUR MEDICINE

Your doctor has prescribed a form of tacrolimus. Several different forms of tacrolimus are available and it is therefore important that you do not change the form of medicine you are taking without medical supervision. Make sure that you receive the same form of tacrolimus every time you collect your prescription, unless your Transplant specialist has agreed to change to a different tacrolimus medicine.

If this medicine does not look the same as usual, or if the dosing instructions have changed, speak to your doctor or pharmacist as soon as possible to make sure that you have the right medicine.
