IMPORTANT INFORMATION FOR HEALTHCARE PROVIDERS

- This patient has received Yescarta®, which is an engineered autologous T-cell immunotherapy product that can lead to severe and even fatal cytokine release syndrome and neurologic adverse reactions. Cytokine release syndrome may involve any organ system.
- WARNING: Cytokine release syndrome and neurologic adverse reactions. See Summary of Product Characteristics for full details.

IMPORTANT INFORMATION FOR HEALTHCARE PROVIDERS (continued)

- Assess the patient for signs and symptoms of cytokine release syndrome and neurologic adverse reactions.
- See the Healthcare Provider Educational Material on how to manage cytokine release syndrome and neurologic adverse reactions.
- **Contact the patient's physician immediately for further information.**

_____

Patient Alert Card

Yescarta® ▼ (axicabtagene ciloleucel) Dispersion for infusion

▼This medicinal product is subject to additional monitoring.

Take this card with you if you go to the hospital or see any doctor other than your treating healthcare provider.

Be sure to tell all healthcare providers you see that you are being treated with Yescarta® and SHOW THEM THIS CARD.

IMPORTANT REMINDERS FOR PATIENTS

- If you experience severe nausea, vomiting, diarrhoea, tiredness or any newly occurring symptoms, especially any of the symptoms listed on this card, please immediately notify your physician, your treating healthcare provider, or any healthcare provider available.
- Do not treat any of these symptoms with over-the-counter medications or herbal/dietary supplements without the approval of your treating healthcare provider.

IMPORTANT REMINDERS FOR PATIENTS (continued)

Yescarta® can cause serious side effects in different parts of your body. These symptoms can be life-threatening or even fatal and need to be addressed immediately.

Symptoms that appear mild may quickly worsen.

Symptoms may be delayed and may occur weeks after your infusion.

Do not feel embarrassed or that you are inconveniencing your healthcare provider.

Call your treating healthcare provider right away if you have any of these symptoms
