What should I know about Rivaroxaban?
• Rivaroxaban thins the blood,which prevents you from getting dangerous blood clots.
• Rivaroxaban must be taken exactly as prescribed by your doctor. To ensure optimal protection from blood clots, never skip a dose.
• You must not stop taking Rivaroxaban without first talking to your doctor as your risk of blood clots may increase.
• Tell your health care provider about any other medicines you are currently taking, took recently or intend to start taking, before you start Rivaroxaban.
• Tell your healthcare provider that you are taking Rivaroxaban before any surgery or invasive procedure.
When should I seek advice from my health care provider?
When taking a blood thinner such as Rivaroxaban it is important to be aware of its possible side effects. Bleeding is the most common side effect. Do not start taking Rivaroxaban if you know you are at risk of bleeding, without first discussing this with your doctor. Tell you health care provider straight away if you have any signs or symptoms of bleeding such as the following:
• pain
• swelling or discomfort
• headache, dizzinesss or weakness
• unusual bruising, nosebleeds, bleeding of gums, cuts that take a long time to stop bleeding
