PiaSky®▼ (crovalimab)
Patient Card

Important safety information for patients prescribed crovalimab or for whom the prescribing decision has been made

! Show this card to any Healthcare Professional involved in your care.

Information for the patient

You have been prescribed crovalimab as treatment for paroxysmal nocturnal haemoglobinuria (PNH). For more information on crovalimab, refer to the crovalimab Patient Information Leaflet, accessible at www.medicines.org.uk/emc.

Crovalimab may make you less able to fight infections, especially meningococcal infections, which require immediate emergency medical attention.

Immediately seek emergency medical attention if you have the following symptoms of possible meningococcal infection:

- Fever
- Feeling sick (nausea or vomiting)
- Headaches
- Confusion or irritability
- Stiff neck or back
- Muscle aches with flu-like symptoms
- Sensitivity of the eyes to light
- Skin rashes or spots

Meningococcal infections may become rapidly life-threatening or fatal if not recognised and treated early.

Crovalimab may cause severe allergic reactions

Immediately seek emergency medical attention if you have the following symptoms of possible severe allergic reaction:

- Tight chest or wheezing
 - Feeling short of breath
 - Fever or chills
 - Severe dizziness, or light headedness
 - Swelling of the lips, tongue, face
 - Skin itching, hives, or rash
- Always carry this card with you while you are on crovalimab treatment and for 11 months after your last crovalimab dose. Your risk of meningococcal infection may continue for several months after your last dose of crovalimab
 - Show this card to any doctor, nurse or pharmacist involved in your care

Reporting of side effects:

▼ This medicine is subject to additional monitoring. This will allow quick identification of new safety information. You can help by reporting any side effects you may get.

If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in the package leaflet.

Please report suspected side effects to the MHRA through the Yellow Card scheme, via the Yellow Card website www.mhra.gov.uk/yellowcard, or the free Yellow Card app available in the [Apple App Store](#) or [Google Play Store](#). Alternatively you can call 0800 731 6789 for free, Monday to Friday between 9am and 5pm.

Side effects should also be reported to Roche Products Ltd. Please contact Roche Drug Safety Centre by emailing welwyn.uk_dsc@roche.com or calling +44 (0)1707 367554.

By reporting suspected side effects, you can help provide more information on the safety of this medicine.

This educational material is provided by Roche Products Limited and mandatory as a condition of the Marketing Authorisation in order to further minimise important selected risks.

Information for the treating doctor

This patient has been prescribed crovalimab, a complement C5 inhibitor, which may make them more susceptible to meningococcal infection.

- Meningococcal infections may become rapidly life-threatening or fatal if not recognized and treated early
- Evaluate immediately if infection is suspected and treat as appropriate
- **Contact the prescribing doctor (listed on this card)** as soon as possible

Please consult the Summary of Product Characteristics for PiaSky (crovalimab) available at: www.medicines.org.uk/emc or contact Roche Medical Information (tel: 0800 328 1629, email: medinfo.uk@roche.com).
